

17555-15

Vi anbefaler at være to personer til samling/montering af produktet.
We recommend two people for assembly/mounting of the product.
Wir empfehlen, dass die Montage des Produktes von zwei Personen durchgeführt wird.
Nous vous recommandons d'être à deux pour procéder à l'assemblage/au montage du produit.
Vi rekommenderar att man är två personer för montering/installation av produkten.

C x 1

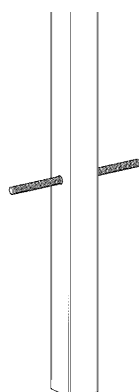

Tilbehør:
Stolper til nedstøbning, se side 2+3+4.

Accessories:
Posts for embedding,
see page 2+3+4.

Zubehör:
Einbetonierbare Pfosten,
siehe Seite 2+3+4.

Accessoires:
Poteaux en métal à sceller,
voir page 2+3+4.

Tillbehör:
Metallstolpar för ingjutning,
se sidan 2+3+4.

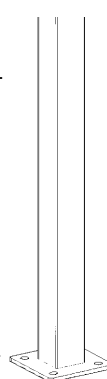

Tilbehør:
Stolper med fod, se side 5+6+7+8.

Accessories:
Posts with foot, see page 5+6+7+8.

Zubehör:
Pfosten mit Fuß,
siehe Seite 5+6+7+8.

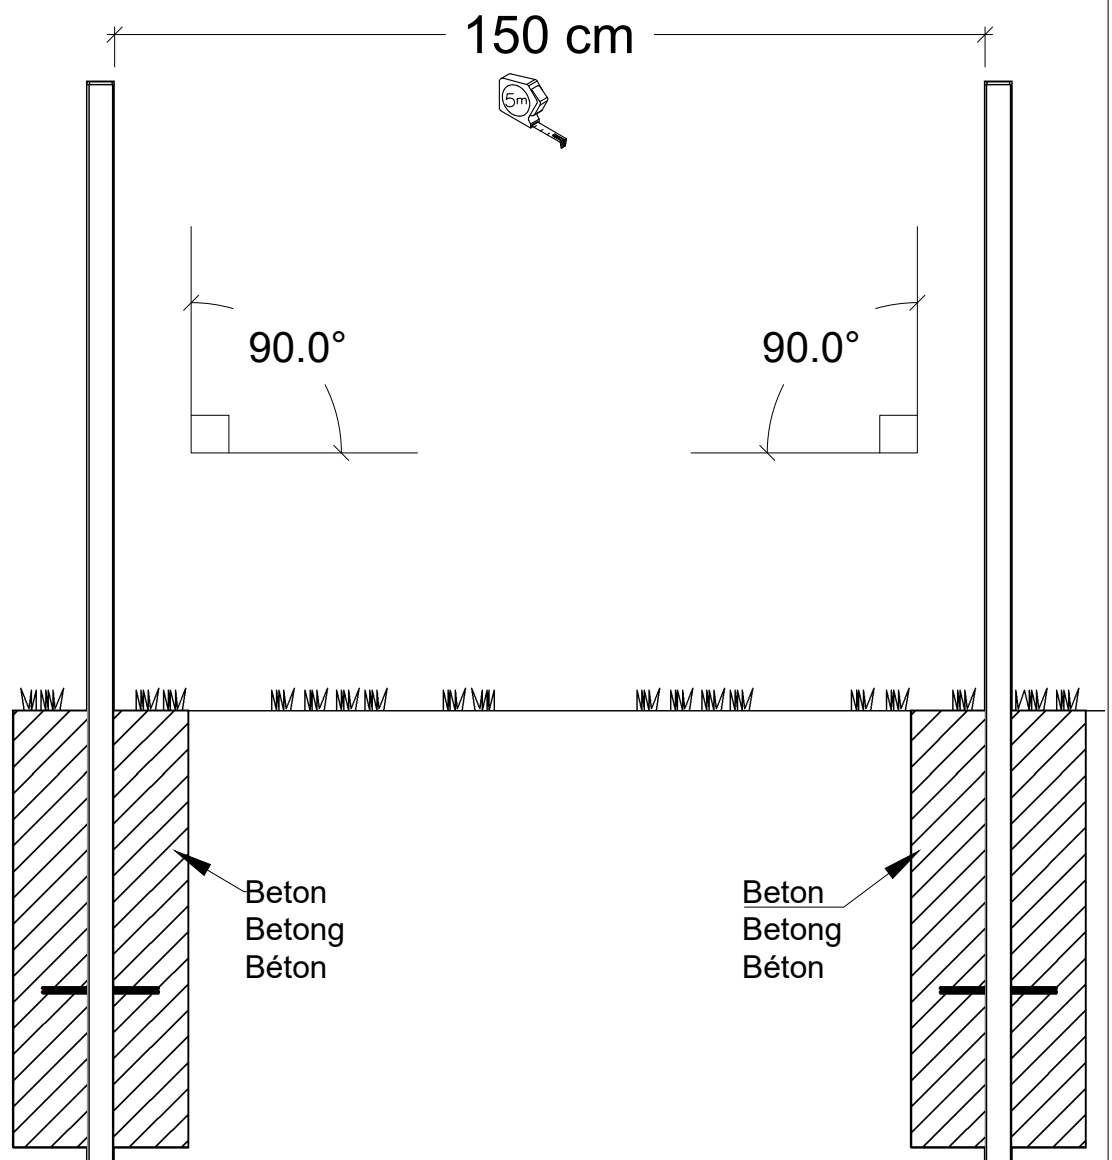

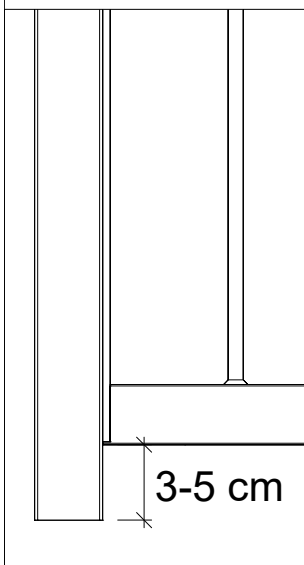

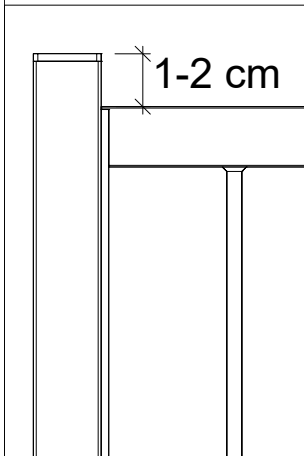

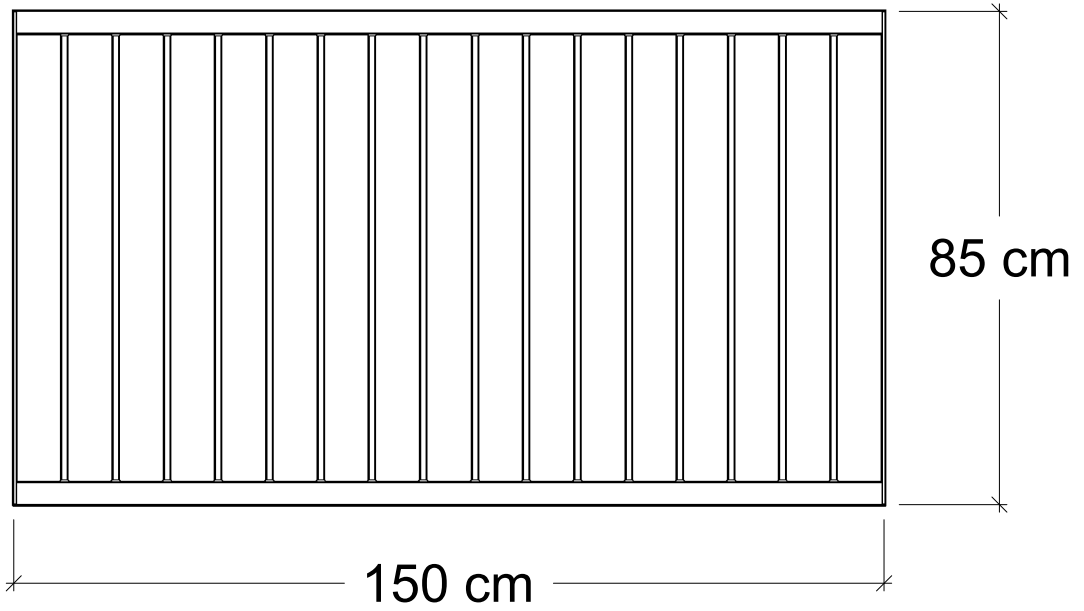

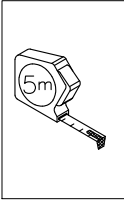

Accessoires:
Poteaux avec pied,
voir page 5+6+7+8.

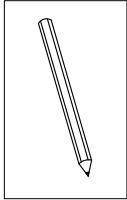

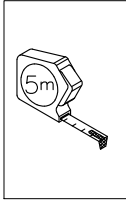

Tillbehör:
Stolpar med fot, se sidan 5+6+7+8.

DK: Fastgørelse af stolper på fliser/fundament eller trækonstruktion.

I begge tilfælde **SKAL** fundamentskruerne ned og have fat i underkonstruktionen.

(Boltene monteres løst, så stolpen kan give sig lidt. Spændes fast, når pergolaen er helt samlet.)

DE: Befestigung von Pfosten an Betonplatte/Fundament oder Holzkonstruktion.

In beiden Fällen **MÜSSEN** die Fundamentschrauben unten bis in die Unterkonstruktion greifen.

(Die Bolzen werden lose montiert, damit der Pfosten etwas Spiel hat. Sie werden festgezogen, wenn die Pergola vollständig montiert ist.)

UK: Fastening posts to tiles/foundation or wooden structure.

In both cases, the foundation screws **MUST** go down and engage the substructure.

(The bolts are installed loosely so that the post can give a little. Tighten when the pergola is fully assembled).

SE: Fäste av stolpar på plattor/fundament eller träkonstruktion.

I båda fallen **MÅSTE** fundamentskruvarna gå ner och fästa i underkonstruktionen.

(Dra åt skruvarna löst, så att det går att vicka lite på stolpen. Dra sedan åt dem helt när pergolan är färdigmonterad.)

FR: Fixation de poteaux sur des dalles/des fondations ou une construction en bois.

Dans les deux cas, les vis de fondation **DOIVENT** être vissées suffisamment profondément pour attraper la sous-structure.

(Ne serrez pas trop les boulons de sorte que le poteau ait un peu de jeu. Serrez-les une fois la pergola complètement assemblée.)

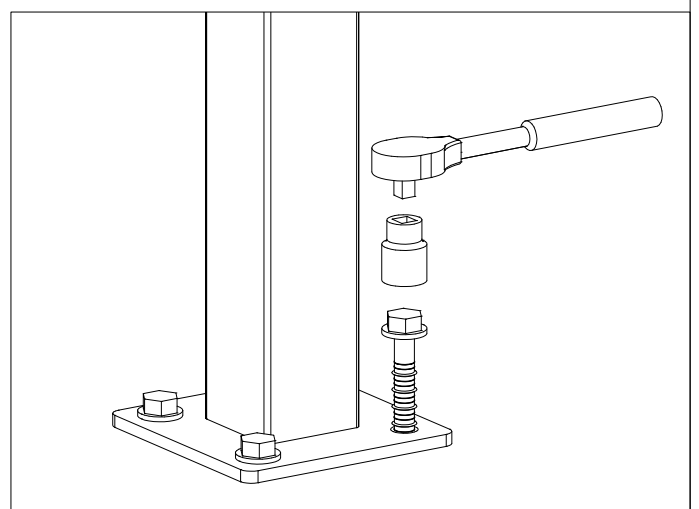

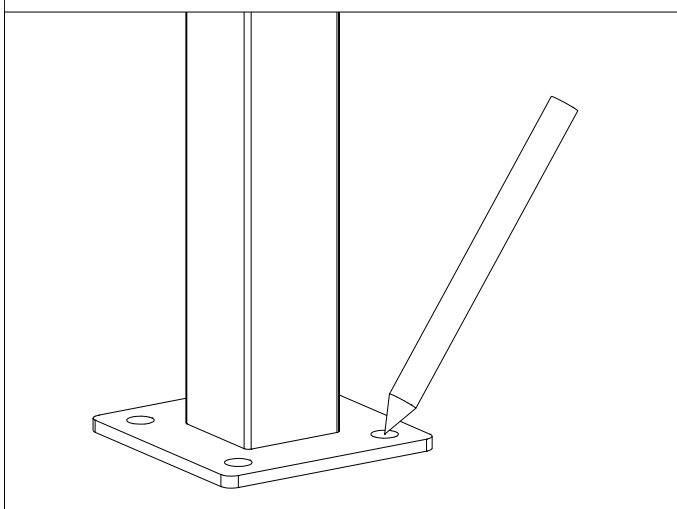

* *Beton forbores med Ø8 mm bor og træ forbores med Ø7,5 mm bor.*

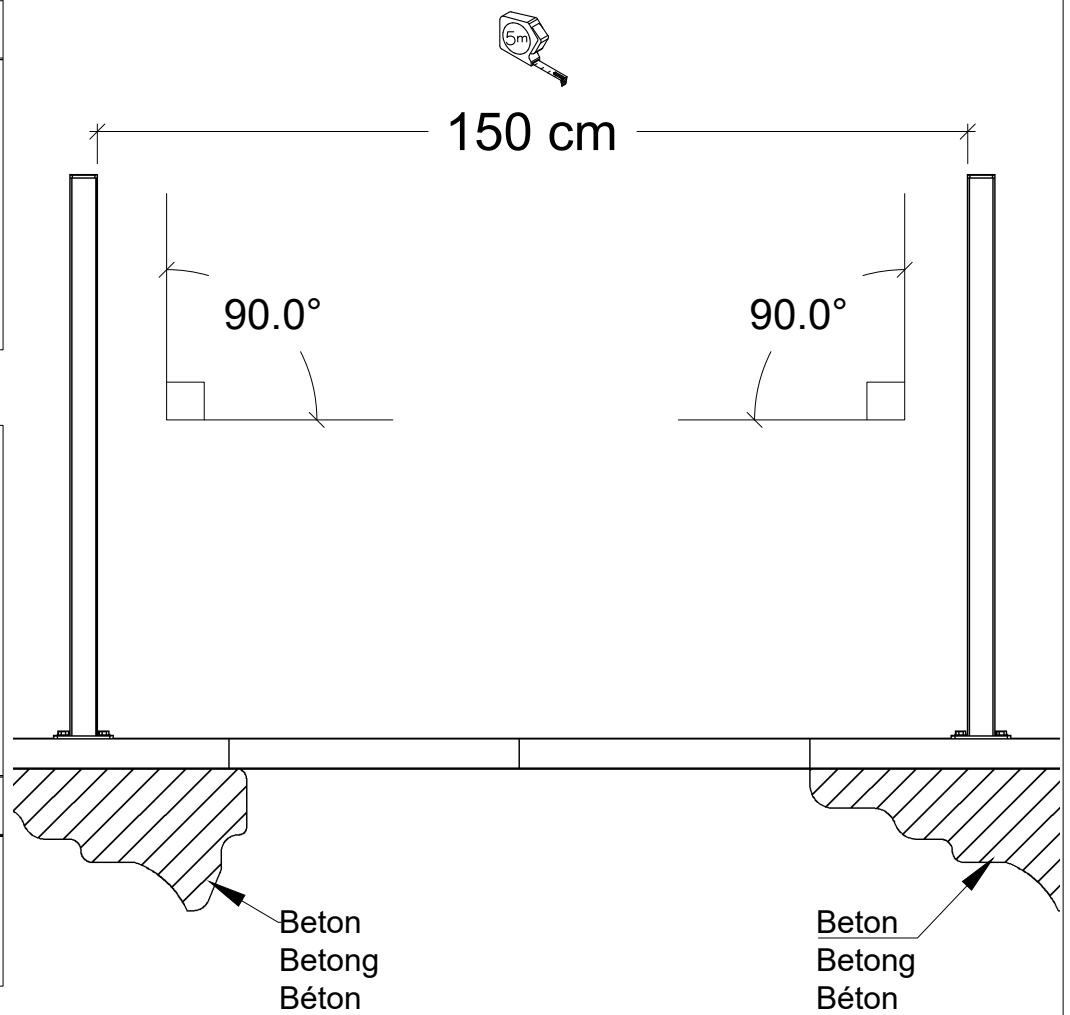

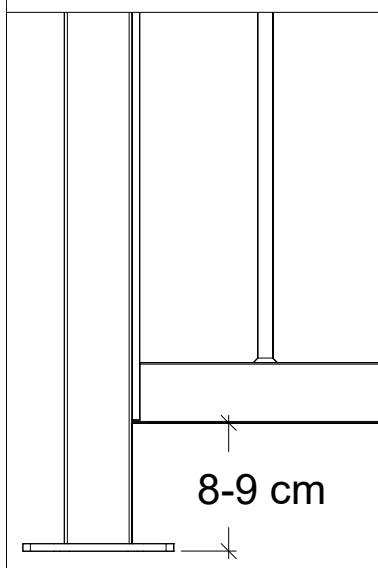

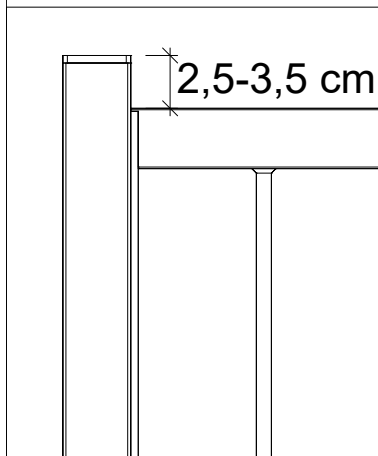

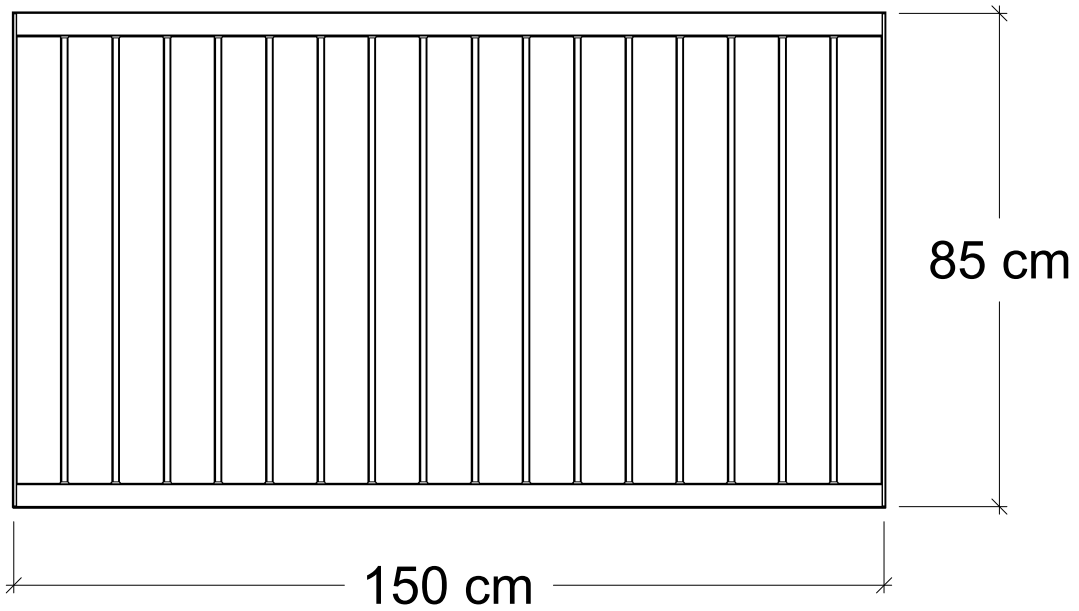

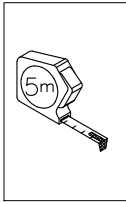

* *In Beton muss mit 8 mm vorgebohrt werden und in Holz mit 7,5 mm.*

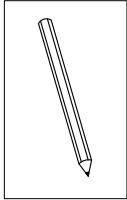

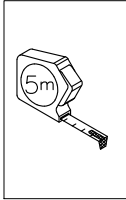

* *Concrete is pre-drilled with Ø8 mm drill bit and wood is pre-drilled with Ø7.5 mm drill bit.*

* *Betong förborras med Ø8 mm borr och trä förborras med Ø7,5 mm borr.*

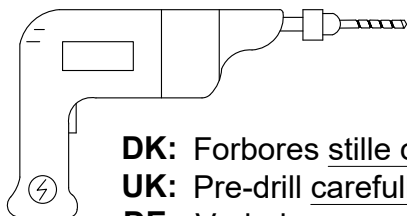

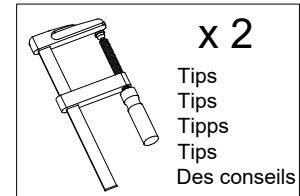

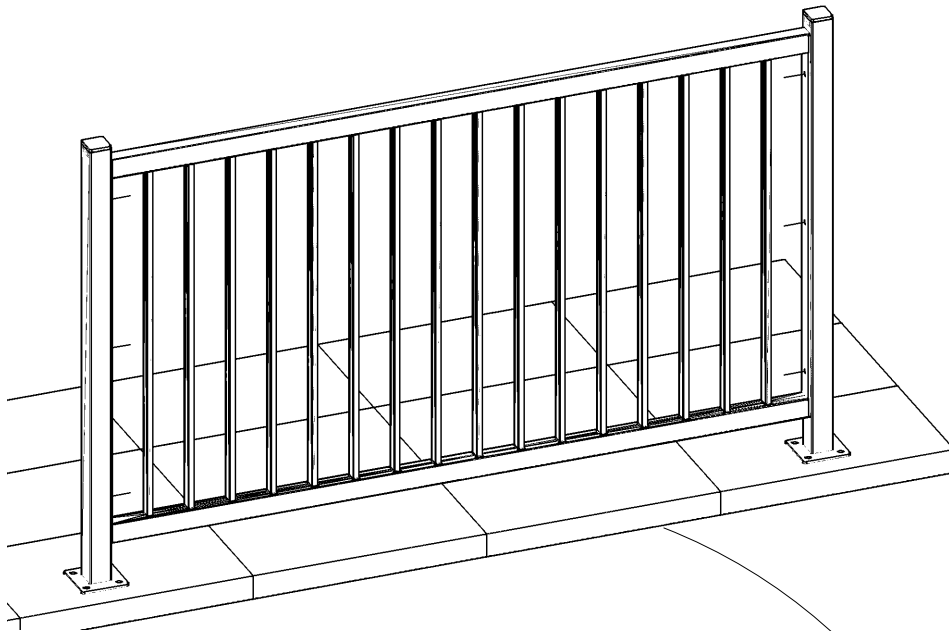

* *Le béton est pré-percé avec un foret Ø8 mm et le bois est pré-percé avec un foret Ø7,5 mm.*
